Dr. Yankelove,

You and your staff are not only highly skilled professionals in eye care matter, you also have that nice, warm "touch" in dealing with patients.

Certainly, my laser surgery and post-op follow up went really well and, now, today I opened a package from you containing the neat little multi-functional desk clock. So here's a big "thank you" for both the surgery and the desk clock. Thanks again!

Sincerely,

Jack
